Professional Experience

STARKIN SOLUTIONS

Full Stack Developer Intern

Hyderabad, HYD

Apr 2025 – Aug 2025

- Contributed to the development of **production-grade web and backend systems** across multiple business domains, with a focus on **performance optimization, scalability, and maintainable architecture**.
- Architected and enforced secure, role-based workflows (RBAC) and approval systems, reducing end-to-end processing turnaround time by **45%** and improving auditability.
- Developed and integrated cloud-deployed services and multi-channel communication pipelines (SMS, Email, WhatsApp), increasing system reliability and notification success rates by **50%**.
- Leveraged **AI-driven automation and NLP techniques** to streamline document analysis and intelligent search, reducing manual review effort by **30%** and improving decision accuracy.

Technical Projects

GESTURA – Sign Language to Gender-Based Speech System (View GitHub)

Jan 2026 – Apr 2026

Python, FastAPI, MediaPipe, DeepFace, Machine Learning, Computer Vision

- Developed an AI-powered accessibility system that translates Indian Sign Language (ISL) gestures into real-time spoken audio using Computer Vision and Machine Learning techniques.
- Engineered a gesture recognition pipeline using MediaPipe landmark extraction and trained models on ISL datasets to improve recognition accuracy and robustness.
- Integrated DeepFace-based gender detection and FastAPI backend services to deliver personalized voice responses through an end-to-end gesture-to-speech architecture.

AI-Powered Fitness Recommendation Application (Microservices Architecture) (View GitHub)

May 2025

Spring Boot, Spring Cloud, Microservices, Keycloak, RabbitMQ, Google Gemini API

- Established a **Spring Boot-based microservices architecture** with 6 modular services, improving system resilience and isolation by **40%**.
- Applied **token-driven API security** using Keycloak and optimized inter-service messaging with RabbitMQ, boosting throughput by **35%** and reducing response latency by **25%**.
- Utilized the **Google Gemini API** to deliver **personalized fitness insights**, supported by centralized configuration and service registration mechanisms.

Skills

Programming Languages: Java, Python, JavaScript (ES6+), SQL

Frontend Engineering: React.js, React Query, Zustand, shadcn/ui

Backend Frameworks: Spring Boot, Spring Security, RESTful APIs, Hibernate, Microservices Architecture

Distributed Systems Messaging: Kafka, RabbitMQ, Eureka Service Discovery

Cloud, DevOps Tools: AWS (EC2, S3, Elastic Beanstalk, Lambda), Docker, Git, GitHub, Postman, IntelliJ IDEA

Education

TKR College of Engineering

B.Tech – Computer Science & Engineering (AI & ML) (CGPA: 8.54/10.00)

Hyderabad, HYD

Nov 2022 – May 2026

Certifications

Salesforce Certified Agentforce Specialist (Advanced Administrator)

Salesforce

Credential ID: 7284680 | Verification Link

Dec 2025
